

## Edward C. Gardetto

Ed has worked in the I/M area with EPA for six years. During this time, he has worked to provide support to states, contractors, and other stakeholders in the Inspection and Maintenance field. His main focus for the past 5 years has been the evaluation and implementation of on-board diagnostics as an I/M tool. He is the co-chair of the OBD FACA workgroup. He is also on the OBD advisory boards for the University of California, Riverside, Center for Environmental Research & Technology and for the Colorado State University On-Board Diagnostic Research and Testing Center. Previously, Ed worked in the EPA Office of Water and in the automotive enforcement and recall area of EPA.

Ed's formal education includes a B.S. in Chemical Engineering from the Pennsylvania State University and an M.S. in Environmental Biology from Hood College. He has previously been an ASE certified Automotive Mechanic and is currently active in SCCA Solo II racing.
